

AIG CyberEdge[®] Risk Consulting Services

Cyber Defence Review

What actions can you take to strengthen your cyber security program?

AIG's Cyber Defence Review service is designed to take a look at your existing cyber program, including your people, processes, and tools, to identify areas of strength and weakness. We combine the knowledge of our AIG cyber consultants – who average 20+ years in cyber security – with a broad range of targeted tools, risk modelling, and security ratings to develop and deliver an actionable plan to reduce your cyber risk.

Service Kickoff

Together with your AIG consultant, you'll:

- Discuss areas of your security program to review
- Identify and send documentation and other information for AIG to assess prior to onsite arrival
- Establish onsite dates and interview schedule

Service Execution

During the review, your AIG consultant will:

- Review security architecture and processes
- Interview staff to discuss what's working and what's not
- Review logs, vulnerability test results, etc.
- Correlate findings from all reviewed elements

Service Takeaways

Following the review, you and your consultant will:

- Review the final report, which is delivered within 10 business days and will include all findings and improvement actions towards a higher level of cyber maturity
- Participate in a remote or onsite C-level presentation of findings with industry comparison and recommendations

Work with us to turn your cybersecurity program weaknesses into strengths.
