assistance**

Why AIG

Experience and Service

ISSUE: A government contractor required additional services that addressed potential travel into high-risk territories, education of DBA/FVC/A&H coverage interactions and concept of Duty of Care, and high hazard travel risk management.

SOLUTION: AIG's service team leveraged compliance knowledge and expertise on the legal restrictions and challenges of potentially operating in the territories. AIG was able to provide a holistic, compliant approach and establish a long-term solution to write all lines of business.

BENEFIT: The client was able to bind a more cost-effective and robust foreign package program with a better understanding of the risks when travelling to high-risk territories and had access to additional risk management tools to reduce the likelihood of employee injuries.

WHY IS THIS IMPORTANT?

Knowledge and experience driving the right solution.

Global Network

ISSUE: A plastic manufacturer was involved in a defective product suit in South America, which was complicated by multiple overseas jurisdictions, challenges posed by the global pandemic, and coordination of various stakeholder interests.

SOLUTION: AIG facilitated the active collaboration between the Canadian-based claims team, overseas in-country claims teams, the U.S. client, and the overseas client, providing the ability to expedite the resolution process.

BENEFIT: The insured had access to strong overseas in-country claims resources with expertise in the relevant local jurisdictions, and a strong centralized team allowed for consistent and efficient communication to all stakeholders.

WHY IS THIS IMPORTANT?

Multinational collaboration with local expertise on the ground where you need it most.

Data on Demand

ISSUE: An international retailer with a complex multinational program had servicing issues with its incumbent carrier. Local policy issuance delays had become a challenging operational problem.

SOLUTION: AIG's superior multinational servicing capabilities, robust network of owned offices and top-tier partners, and technological capabilities increased collaboration and transparency. The myAIG Client Portal tool was implemented at binding – with access for the broker and client – to ensure monitoring of local policy issuance.

BENEFIT: The client, broker, and underwriter had real-time visibility into potential issues allowing for timely local policy issuance. Transparency into this complex multinational program created a stronger relationship built around trust.

WHY IS THIS IMPORTANT?

Combining technology and human expertise enables efficient delivery of services.

What is AIG Foreign Casualty?

Our industry experts, supported by AIG's vast global capabilities, structure programs that effectively and efficiently manage risk by providing solutions designed to address:

- Customized, locally compliant casualty or package coverage for Canada based organizations with foreign casualty exposures
- Beyond-the-policy solutions with comprehensive client support from pre-bind to program implementation to post-bind
- 24/7 global medical, travel, and security assistance
