- Flexible programs tailored to our clients' needs
- Our own in-house claims and loss control engineers who have addressed inland marine risks for years and can perform valuable loss prevention mitigation for our customers

Coverage

- Available limits of up to \$15 million
- Locally admitted policies
- Broad array of coverage forms available

Inland Marine

Loss Control, Engineering and Claims Services

Expert focus is given to helping insureds prevent losses and mitigate those that do occur. Services include:

Marine Loss Control Engineering (MLCE)

More than a dozen experienced loss control professionals spanning all time zones help policyholders reduce trade and transportation risks and minimize costly delays. Our comprehensive loss control services are based on three core principles:

- Proactive loss prevention – Helping clients avoid losses by analyzing potential exposures and minimizing them
- Reactive loss control – Helping clients prevent future losses by analyzing historical loss frequency and severity trends and acting to address vulnerabilities
- Communication – Maintaining open communication between policyholders and loss control professionals to enhance loss prevention efforts

Policyholders can also take advantage of the expertise of our independent surveyors and loss control experts who specialize in infrastructure projects, cargo, towing, heavy-lift, logistics and warehousing.

Claims Services

Our claims operations are staffed with marine and inland marine specialists, whose knowledge of both marine insurance law and property insurance enables us to resolve claims quickly and maximize recoveries, delivering tremendous benefit to our customers.

Comprehensive Recovery Support

Recoveries are central to our approach to claims. We have local and regional recovery specialists who focus on achieving maximum recovery on every claim. Such efforts help insureds maintain a favorable loss experience and keep premiums down.
